BESPOKE

LONGEVITY & AESTHETIC MEDICINE

Longevity Doctor – Bespoke Longevity & Aesthetic Medicine

Location: Gold Coast, QLD
Employment Type: Part-time
Clinic Type: Premium, doctor-led Longevity & Aesthetic Medicine Centre

---

About Us

Bespoke Longevity & Aesthetic Medicine is the Australia's premier doctor-led clinic specialising in precision longevity diagnostics, preventative medicine, regenerative therapies, and evidence-based aesthetic medicine.

Our clinic blends world-class technology (DEXA, MRI longevity screening, advanced biomarker analysis, VO_2 max, metabolic testing), personalised medical interventions, and a luxury patient experience. With significant growth and national expansion ahead, we are seeking an exceptional Longevity Doctor with RACGP to join our team.

The Role

We are searching for a motivated and forward-thinking Longevity Doctor with RACGP to deliver comprehensive, personalised longevity and preventative health care.

Key responsibilities include:

- Conducting longevity and preventative health consultations
- Interpreting advanced diagnostics (MRI longevity screening, DEXA, biomarkers, VO_2, metabolic testing)
- Creating tailored treatment plans focused on metabolic health, biological age optimisation, hormone support, supplements, and lifestyle medicine
- Collaborating with longevity coordinators, nurses, and allied health staff
- Prescribing and overseeing longevity protocols and weight optimisation programs
- This is a face to face role onsite (no telehealth available)

This role is ideal for a doctor who wants to work in a cutting-edge clinic at the forefront of longevity medicine in Australia.

Who We're Looking For

A doctor who is:

- Passionate about preventative health, metabolic optimisation, and longevity medicine

- Warm, patient-centred, and comfortable working in a premium environment
- Confident interpreting comprehensive diagnostic data
- Science-driven, curious, and committed to ongoing professional development
- Interested in developing long-term treatment pathways for high-engagement patients
- AHPRA-registered medical practitioner with RACGP & full working rights in Australia
- Must be onsite (no telehealth available)

Preferred (but not essential):

- Background in General Practice, Lifestyle Medicine, Functional Medicine, Endocrinology, Sports & Exercise Medicine, Integrative Medicine, or Preventative Health
- Experience in hormone optimisation, metabolic medicine, weight management, or regenerative therapies

We welcome doctors transitioning from general practice, aesthetic medicine, wellness medicine, or related fields.

Why Join Bespoke

- Work within an Australian longevity clinic located on the Gold Coast
- Access advanced diagnostic tools and innovative treatment protocols
- Luxurious, supportive, multidisciplinary environment
- Opportunities for leadership roles as the clinic expands nationally
- Professional development in advanced longevity and regenerative medicine

Remuneration

- Competitive contractor package
- Incentive-based remuneration opportunities (performance bonuses and additional earning pathways)
- Flexible options: Part-time roles available

How to Apply

If you are passionate about the future of preventative medicine and want to help patients live stronger, healthier, and longer lives, we would love to hear from you.
