

# IS YOUR PRACTICE PREPARED FOR MY HEALTH RECORD POST OPT OUT?

## GOLD COAST PRIMARY HEALTH NETWORK IS OFFERING ADDITIONAL MY HEALTH RECORD SUPPORT FOR PRACTICES, HEALTHCARE PROVIDERS AND PATIENTS

- *Would your GPs and nurses be more confident with additional training to upload, view and save documents in the My Health Record?*
- *Would your patients like more information about using and accessing the My Health Record?*

A GCPHN My Health Record (MyHR) Team member can attend your practice and provide one-on-one support or training for Healthcare providers to upload, view and save documents in the My Health Record.

A GCPHN My Health Record Team member can attend your practice and provide an information session or one-on-one support for practice patients, assisting them with accessing their MyHR, setting up an authorised representative, setting up access codes or just recording personal notes in their My Health Record.

If you think your practice or patients would benefit from one or both options, please contact us via email [myhealthrecord@gcphn.com.au](mailto:myhealthrecord@gcphn.com.au) and we will discuss how we can be of assistance.
