6.2. Deliverables and Reporting

Background

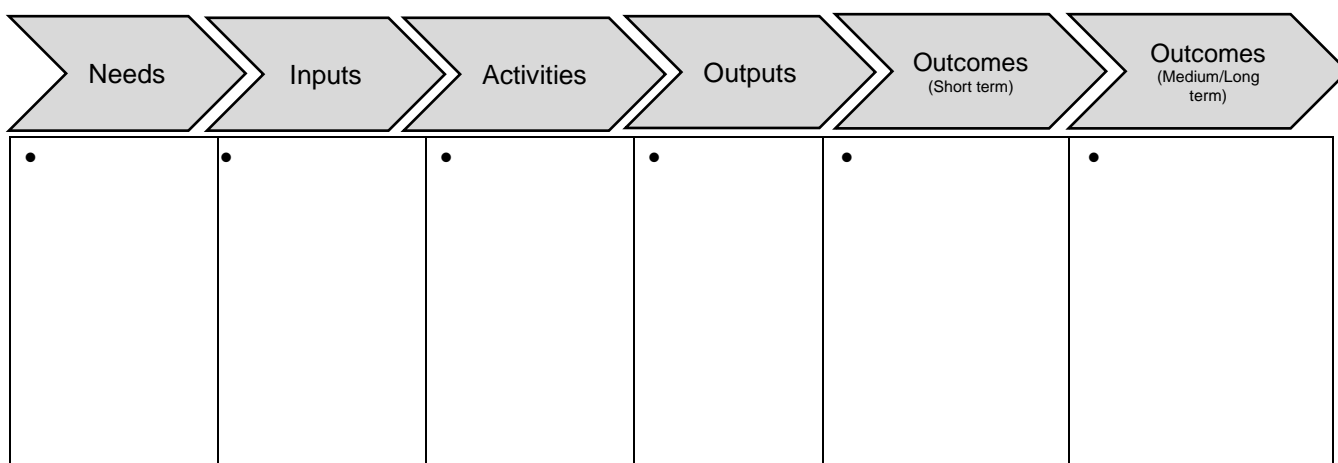

GCPHN Performance is measured through the PHN Program Performance and Quality Framework, which aims to consider how the broad range of activities commissioned by the PHN contribute to the overarching objectives.

The framework consists of four key components:

- PHN Program Objectives
 - Increasing the efficiency and effectiveness of medical services, particularly for people who are at risk of poor health outcomes
 - Improved care co-ordination to ensure people receive the right care at the right time
- Outcome Themes (addressing need, quality of care, improving access, co-ordinated care and capable organisations).
- Outcomes – drawn from National program logics
- Performance Indicators.

It is GCPHN's intent to move towards the use of more localised Program Logic for all commissioned services to ensure service delivery focuses on achieving the intended outcomes identified for our region and to support our move towards outcome-based funding. GCPHN will work with you to further develop the Program Logic including co-design of the outputs, and short, medium and longer term outcomes over the term of this agreement.

Example of Program Logic

In the short term you will be required to report on the activities specified below which are aligned with Indicators within the PHN Program Performance and Quality Framework. The data will be submitted via national portals and/or on the GCPHN Performance Reporting Templates.

National Performance Indicators Code	Activity	Measure (Number of)		Data Reporting Requirements
		Quantity per annum	Service Users	
Eg MH1 Rate of regional population receiving PHN commissioned low intensity psychological services				As per National Minimum Data Set ie Mental Health Or As per GCPHN Performance Reporting Template
				As per GCPHN Performance Reporting Template

Establishment Plan / Annual Quality Improvement Plan (Plan)

Definitions of Plan

Establishment Plan: To be completed where a new service is requiring an establishment phase, prior to the implementation of direct service delivery.

Annual Quality Improvement Plan: At commencement of any contract a Quality Improvement Plan is required and then required by 30 April for the following year.

To enable a more complete review of Your service and enable flexibility with negotiation over the period of the Service Agreement You are required to provide a Plan to us using (but not limited to) the Plan at (Attachment 2 of the Service Schedule). If you already have either an Annual Operational Plan or Annual Quality Improvement Plan with your organisation, for this commissioned service, then the copy you have provided GCPHN will be shown at (Attachment 2: Your Annual Operational Plan or Annual Quality Improvement Plan as endorsed by us).
