

Seeking General Practitioners for Accreditation

The Improvement Foundation is delighted to announce a relationship with Global-Mark to be at the forefront of general practice accreditation. Global Mark (www.global-mark.com.au) is a trusted provider of accreditation and certification across a range of industries. Working with Global Mark, we are launching a new General Practice Accreditation program that aims to deliver accreditation using innovative and continuous quality processes that provide practical benefits and enhanced value for general practices.

We invite you to contribute your passion for safe and high-quality general practice by becoming a contracted assessor.

As an assessor, you will demonstrate your leadership for quality general practice by sharing professional knowledge and insights with peers. Surveyors benefit from exposure to a range of different systems and ideas, enabling them to continuously improve their own practices.

Surveyors work in teams consisting of a general practitioner as lead surveyor and a co-surveyor, which can be a practice manager, practice nurse, allied health professional or Aboriginal and Torres Strait Islander health worker. We are seeking expressions of interest from experienced and passionate general practitioners.
