

# Statewide General Medicine – Respiratory – Rural & Remote – Primary Health – Infection – Dementia - Clinical Networks Combined Forum Program

## The art and science of choosing the right care

**Date:** 27 November 2020

**Time:** 1:00 – 3:00pm (WebEx link will be available from:  
12:45pm)

**Venue:** Virtual – Teams

**Registration:** please [Register Here](#)

By the end of the Forum, attendees will have a better understanding of key issues common to all healthcare settings and healthcare workers:

- The risks and restrictions created by incomplete and incorrect clinical information
- The art and science of managing multimorbidity by juggling disease, illness and wellbeing; choosing what and what not to do
- The need for greater collaboration and communication between all health care providers and the consumer

Time	Topic	Presenter
1:00pm	Welcome – House Keeping	Ian Scott
<b>A case study in three parts</b>		
<b>1:05pm</b>	<b>Part 1: Community Care – Facilitator: Konrad Kangru (35 mins)</b>	
	Meet the patient	Carl de Wet
