

# Have You Diagnosed or Managed SYPHILIS During a PREGNANCY or provided care to a NEONATE born to someone diagnosed with syphilis during a pregnancy?

We're looking for healthcare professionals who have had experience in screening and/or managing a syphilis diagnosis in pregnancy, congenital syphilis and/or neonates diagnosed with syphilis to better understand current treatment and management experiences.

Participants will take part in an individual interview of approximately 30 to 60 minutes at a time and place most convenient for them.

During the interview we will explore your experiences and thoughts about the management of syphilis.

## Participants will receive

- \$150.00 gift card following the interview as a token of appreciation of your time

## Are you eligible?

- Australian-licensed healthcare professional over 18 years of age
- Have experience in screening and/or managing syphilis diagnosis in pregnancy, congenital syphilis and/or in neonates

If unsure if you meet the requirements, or if you would like more information about the study, call or email a member of the study team:
