### Activity Priorities and Description

**Program Key Priority Area \***

Mental Health Priority Area 1: Low intensity mental health services

**Other Program Key Priority Area Description**

### **Aim of Activity \***

The purpose of the CPS – Access Enablers activity is to ensure that consumers are linked in to service supports in the region that match their service need, including support to link with available and suitable mental services and NDIS services in the region if/as eligible.

### **Description of Activity \***

GCPHN will utilise the funding to support delivery of the following activities:

- service navigation
- NDIS testing support
- capacity development, and
- strengths-based assessment.

This funding also provides for regional loading and PHN operational.

GCPHN will utilise this funding in line with the service navigation measure guidance to continue activities aligned with the guidance objectives:

- Establish coordinated referral processes to support consumer access to psychosocial support programs
- Implement standardised consumer intake processes across providers.
- Work with providers to establish integrated processes for routine information sharing.
- Develop and distribute up-to-date and detailed information resources for service providers
- Actively engage health professionals, including GP's and Aboriginal Community Controlled Health Services

### Activity Priorities and Description

**Program Key Priority Area \***

Mental Health Priority Area 1: Low intensity mental health services

**Other Program Key Priority Area Description****Aim of Activity \***

- NPS1 – National Psychosocial Support Measure  
NPS1 - Existing Activity

The purpose of the National Psychosocial Support (NPS) measure is to provide psychosocial support services to assist people with severe mental illness who are not more appropriately supported through the National Disability Insurance Scheme (NDIS). These services help people through capacity building to manage their mental illness, strengthen their relationships with families and friends, manage finances, housing, and develop living skills. The services provide a range of non-clinical community-based support to these individuals to achieve their recovery goals, as well as support to apply for the NDIS as appropriate.

**Description of Activity \***

NPSM Service Delivery

As of 1 July 2022 GCPHN will continue to commission Primary and Community Care (Plus Social) – Severe and Complex Mental Health Services to provide psychosocial services as an integrated component of their service model. The Plus Social Model includes Psychosocial services (moderate intensity), and Clinical Care co-ordination services (high intensity).

NPSM activities commissioned through this provider are delivering services in scope of the guidance provided by DOH regarding psychosocial support for people with severe mental illness. Services currently provided and continuing will include activities such as:

- o Individual and group-based supports
- o Managing mental illness - working towards maintaining wellbeing
- o Social connectedness
- o Improve connections with friendships and family
- o Financial management and budgeting, support for housing
- o Physical wellbeing and health awareness

NDIS application supports

The provider has developed a treatment services hub that supports co-location of ancillary services such as Centrelink, public housing services, psychological service providers, and other community agencies to support the delivery of holistic support for psychosocial needs.

NPS1.1 - NPS Alliance: Sector Partnerships & Integration (Governance), as of 1 July 2022 the NPS Alliance will be discontinued with the group been included in the membership of the Mental Health Adult and Older Persons Partnership group, which is one of four partnership groups under the governance of the Steering Committee for MH 8 Regional Mental Health and Suicide Plan.

CoS

**Activity Number \***

1

**Activity Title \***

Continuity of Support

**Existing, Modified or New Activity \***

Modified

### Activity Priorities and Description

**Program Key Priority Area \***

Mental Health Priority Area 1: Low intensity mental health services

**Other Program Key Priority Area Description****Aim of Activity \***

The purpose of the Continuity of Support program is to enable previous clients of the Commonwealth community mental health programs (PIR, PHaMs and D2DL) who had not been found eligible for the National Disability Insurance Scheme (NDIS) supports at the time these programs ceased (30 June 2019), to continue to receive appropriate support using a recovery and strengths-based framework.

**Description of Activity \***

Continuity of Support:

The Continuity of Support (CoS) program was initiated in collaboration with the Gold Coast sector through the NPS Alliance membership with the existing PIR and PHaMs providers (there were no identified D2DL providers within the Gold Coast region). GCPHN funded two of the existing PIR and PHaMs providers for the 2019/20 financial year to provide both the National Psychosocial Support Transition (NPST) and Continuity of Support services. This design was based on the desire to provide continuity of care for the PIR and PHaMs participants (closed to only those remaining in the program as at 30 June 2019).

Clients of the NPST program were initially tested for the National Disability Insurance Scheme (NDIS), those who did not meet the requirement were transferred into the CoS program, as were the remaining clients who were yet to complete an application at the cessation of the NPST program, 30 June 2020.

Initially, accurate predictions of CoS client numbers were unable to be achieved as estimates only could be made from those

testing or not testing NDIS eligibility within the NPST program, however resulting NDIS outcomes were not able to be factored in. As this program has evolved and the actual number of ongoing CoS clients has become better known to be a smaller number than initially predicted, a review took place of the commissioning approach for the two funded organisations delivering the CoS program. In consultation with these providers, the agreed outcome resulted in GCPHN commissioning a single provider for the 2020/21 and 2021/22 financial years to support economies of scale for the organisation and clients.

In preparation for the final year of the program (2021/22) and with client reductions expected as a result of re-testing NDIS eligibility, the COS funding was allocated based on actual numbers of people engaged within CoS services as of the 30/6/21. A payment to support staffing equivalent to 1 FTE per 15 open cases has been provided with additional resources to be considered to support group-based interventions and individual supports for the provision of NDIS re-testing supports, or successful wellbeing planning for those who do not wish to re-test, ensuring all clients have a connection to services at the end of the program 30th June 2022.

Commissioned provider will be providing services to individuals that meet this activity eligibility to:

- a) Provide ongoing non-clinical psychosocial support services in line with the DOH guidance on psychosocial support for people with severe mental illness. This will include both individual and group services that may include (but not be limited to):
  - a. Social skills support
  - b. Support and empower to build connections with friendships and family connections
  - c. Financial management and budgeting, support for housing
  - d. Vocational engagement support including volunteering and study as appropriate
  - e. Maintaining physical wellbeing
  - f. Support individuals who may wish to re-test their eligibility for the NDIS with this process.

Through the NPS Alliance (Activity NPS1.1) the provider of the continuity of support services meet regularly with the providers of the clinical care coordination services under the severe and complex mental health stream to ensure that people receiving services under the CoS stream have access to clinical support as appropriate

### Activity Priorities and Description

**Program Key Priority Area \***

Mental Health Priority Area 1: Low intensity mental health services

**Other Program Key Priority Area Description****Aim of Activity \***

The purpose of the CPS-Interface activity is to ensure that psychosocial services are available for those who require support and ensure there are no gaps in service delivery for previous clients of the Commonwealth PIR, D2DL and PHaMs programs. The focus is to support mental health clients who do not qualify for supports through the National Disability Insurance Scheme (NDIS), including support to test or re-test for NDIS, as well as plan, fund, commission and establish services under the Continuity of Support (CoS). program and the integration of services within the CPS programs.

**Description of Activity \***

The Service Navigator measure provided in December 2020 and utilised by 31 December 2021.

GCPHN will utilise this additional funding in line with the service navigation measure guidance to continue activities aligned with the guidance objectives:

- Establish coordinated referral processes to support consumer access to psychosocial support programs
- Implement standardised consumer intake processes across providers.
- Work with providers to establish integrated processes for routine information sharing.
- Develop and distribute up-to-date and detailed information resources for service providers
- Actively engage health professionals, including GP's and Aboriginal Community Controlled Health Services

GCPHN will utilise the funding internally to drive activities:

- MH7.2 – Further enhancement of Central Referral, Triage and Information Service
- NPS1.1 – Gold Coast Psychosocial Alliance

In addition the Department of Health has approved the transfer of \$413,400 (\$148,400 20/21 and \$265,000 21/22) from unspent funds in the 20/21 CPS-T activity to CPS Interface to support the enhancement of Referral and Triage services as outlined at MH7.2.
