

YOUR CHILD'S IMMUNISATION STATUS MAY AFFECT YOUR CHILDCARE OPTIONS.

From 1 January 2016, new laws mean that if you can't show your child's vaccinations are up to date, your childcare options may be affected.

Call **13 HEALTH** (13 43 25 84), ask your GP or immunisation provider, or visit qld.gov.au/vaccinate

ON-TIME VACCINATION MATTERS.

For the best protection, vaccinations need to occur on time or as close as possible to the due date.

- 1) Kids aren't fully protected if their vaccinations are overdue.
- 2) Unimmunised children face a higher risk of contracting life-threatening, vaccine-preventable diseases.
- 3) If your child has missed any vaccinations, a catch-up schedule can be developed with your GP or immunisation provider.
