

Gold Coast Primary Health Network

Focusing on Primary Sense GP prompts for beginners

General Practitioner prompts

- Prompts may appear when a GP opens the patient's record in the clinical software. These prompts are specific to each patient
- They only contain 3 items at a time, and these have been given clinical priority in order of appearance
- When one element is actioned that allows a subsequent element to appear on the next prompt
- The more information section provides a rationale for the prompt, and relevant details for cross referencing by the GP

Primary Sense™ Prompt

P Lee, 45 y/o, C King

Complexity Score 2/5 Chronic Conditions 1 Hospital Risk Score 0%

Please indicate your actions:

Agree - Action Agree - Override Next Time Wrong More Info

Missing CV Risk Medication

Due Heart Health Check Assessment

Due Microalbumin Pathology

GP prompts cont.

- As prompts are more frequent than alerts, they stay visible for three minutes. This prevents multiple prompts being opened on a GP's screen at one time.
- GPs can click 'give me more time' to re-set the three minutes.
 - GPs can also retrieve the prompt from the My Prompts History. Through here, they can also further review/change the selection options.

Primary Sense™ Prompts

This screen shows how you have managed prompts so far today.

My Prompts History Settings

	Time	Patient	Prompt	Action
<input checked="" type="radio"/>	12:12 P...	Ryan, P	Due Microalbumin Pathology	Not Actioned
<input type="radio"/>	12:12 P...	Ryan, P	Due Heart Health Check Assessment	Not Actioned
<input type="radio"/>	12:12 P...	Ryan, P	Missing CV Risk Medication	Not Actioned
<input type="radio"/>	6:43 AM	White, Q	Due Medication Review	Not Actioned
<input type="radio"/>	6:43 AM	White, Q	Due Care Plan	Not Actioned
