

Love being a GP?

But struggling to see a future for yourself with bulk billing and 5-minute medicine?

Feeling un-supported by your practice, by RACGP and your colleagues?

Fed up with patients who take and take and take and don't value you, or the work you do?

Stuck in overwhelm, as you race into work each day, power through all your patients, check results, put out fires and then race off to deal with life at home before you come back and do it all again?

What if you could have it all?

Being a GP is an amazingly fulfilling career.

But it's not without its challenges.

Sometimes it feels like it's a thankless job. Sometimes it feels like your day is just chaos. Sometimes it feels like you have nothing left to give. Sometimes it feels like you are making no difference to a patient's health and OFTEN it feels like you are not being paid what you are worth.

We get it. And it's time for a change.

Hi! I am Dr Krista,

And a few years ago, I did a thing... I bought into a Family Practice.

And not just any practice, a practice that I grew up in, learned to be a doctor in, and now trust to look after my family and friends.

It was exciting and scary at the same time.

But I have a vision for what I want to create here and it looks something like this:

A privately billing practice that is:

- A place where everyone loves to come to work.
- A place where there is support to do your best work.
- A place that is organised, calm, where systems are in place, and everything just flows.
- A place where you finish your day feeling happy and fulfilled.
- A place that pays fairly and where you are appreciated.
- A place that helps you enjoy life.

And I need your help, not only to continue this journey and bring this vision to life but to make it even greater!

Why would you consider US in an ocean of job opportunities right now?

- We will take care of the practice management. All our systems and procedures are in place at Broadbeach Family Practice. Everything runs smoothly, everyone knows their roles and responsibilities as well as our long-term goals as a practice and the job satisfaction is high across the board.
- You will finally earn what you deserve. We understand the value in providing exceptional care to our patients and our patients understand it too.

This role will give you a future. There is opportunity for growth both personally and professionally. We want to support you to do that.

We work as a team, we have trained admin, nursing, and allied health staff, we all know what needs to be done, what our roles are, and we each have autonomy to manage ourselves and get the job done.

We thrive on training and mentoring. We encourage you to learn and do more. Our GPs are the linchpin to our, and our patient's success.

We do our best to have fun and enjoy ourselves while we are at it!

We need a GP to join our growing team of doctors, nurses, allied health and admin. We are flexible on days, hours, and holidays. We are a privately billing practice, and we pay our GPs a percentage of their earnings in line with standard practice in General Practice in Australia.

If you are looking for an established but growing practice where you can cement yourself without the usual concerns, a practice that is committed to providing you with long term career opportunities to do what you love in beautiful Broadbeach on the Gold Coast, then get in touch, give me a call on 0417759595.

Talk to you soon!

Krista Talbot
