

Disaster Emergency Management Unit 2 Middleton Street Ashmore

Either enter Middleton St via Wardoo St and follow right around veering left through roundabout and head to the top of street. Or via Hinde St and turn left just before the Ashmore Palms Holiday Village (it is a private road, not named but is open for use) and building is on left hand side straight after the gates and 15km speed sign.

Large blue sign saying 'Disaster Emergency Management' out the front of newly built building.

DEMC Building is located opposite Harvey Norman warehouse, parking is available directly out the front of the building, or any of the areas indicated in green on the map. Please do not park in the Harvey Norman marked parking bays.

Head to the big yellow door, press the intercom to be provided entry.

Please be aware that we are still considered a construction zone, and some external areas are not accessible. Please be careful in the area as there is large machinery and trucks around. Mostly in gated areas, but still be mindful of this.
