# Empowering Women's Health

## A focus on Women's Critical Health Issues

**Saturday 12th October 2024**

**8.30am – 4.30pm 8.20am (registration)**

We are excited to invite you to an informative and empowering event dedicated to enhancing the knowledge and skills of General Practitioners in the field of women's health. This CPD will delve into the critical health issues that affect women across their lifespan.

Join us for a comprehensive exploration of the latest research, treatment guidelines and practical strategies aimed at improving health outcomes in women. This event offers delegates an opportunity to collaborate with expertise in the field, share experiences with fellow practitioners and ultimately empower your practice to provide the best possible care for female patients.

**Venue** J W Marriott Gold Coast Resort and Spa  
158 Ferny Ave, Surfers Paradise

### Learning outcomes

1. Delegates will be able to identify significant clinical concerns related to fibroids including features that may indicate malignancy. Understand the preferred initial workup for gynaecological cancers and when to refer to specialist for evaluation and management
2. Develop the ability to critically evaluate and identify the appropriate indications for MRI in the workup of pelvic pain, recognise what is most suitable for patients with imaging suggestive of colorectal involvement, to improve diagnostic accuracy and patient outcomes
3. Apply updated clinical guidelines and best practices for breast cancer management in different stages and subtypes of the disease
4. By the end of this CPD participants will be able to critically assess and apply the latest guidelines for screening and managing common gynecological conditions to improve patient outcomes
