

An Australian Government Initiative

Dementia in Residential Aged Care Untangling the intricacies

Friday 7 February 2025

8.00AM - 2.30PM | Robina Community Centre Auditorium

In collaboration with Gold Coast Primary Health Network (GCPHN) and Gold Coast Health RACH Acute Care Support Services (RaSS), the Enhanced After Hours Project team invites GPs and nurses working in residential aged care homes to an engaging forum addressing the complex care needs of residents living with dementia. Esteemed speakers will share their expertise, experiences, and practical resources to support health professionals in providing high-quality dementia care.

Participants will gain insights on topics including:

- End-of-life care
- Identifying and addressing unmet needs
- Navigating medication complexities

Attendees will also be introduced to the latest tools and support networks available to enhance care delivery.

End the day with an interactive Q&A session, designed to foster collaboration and address challenges through solution-focused discussions aimed at improving care for residents living with dementia.

Morning tea and lunch will be provided.

To register, complete the form via the QR code or visit the event webpage:
