**To register your interest in this workshop it is essential that you are:**

- A primary care nurse currently working in a general practice on the Gold Coast
- Available to attend a 3 hour face to face workshop on Wednesday 20 August.

This 3 hour interactive course is an opportunity to review, consolidate and expand on your learned knowledge as a primary healthcare nurse providing immunisations to patients. This Complex Catchup course will cover practising complex catch-up scenarios and provide an opportunity to ask questions and create your own scenarios that you have seen in your practice.

You will review and refresh your knowledge on catch-ups using the Australian Immunisation Handbook Catch-Up Tables and then practice using complex catch-up scenarios.
