

Medical Director (MD) Entering Bowel Screening (FOBT) Results

Note: Most NBCSP results should come in via Sonic Healthcare electronically (HL7 format), however, where results have not come in via this format, for example:

- Saving directly from NCSR
- Brought in as print-out by new patient

Results will need to be manually entered. Ensure that patients who have results available from the NCSR (even if it has been nominated from another healthcare provider) have their results entered correctly to ensure accurate data can be picked up by data extraction tools such as Primary Sense.

Step 1 Download the FOBT Result from NBCSR

1. Click on the National Bowel Cancer Screening Register Widget in MD
2. Select the provider you will be acting for if not a GP
3. Under NCSR History Tab find current FOBT Result
4. Click on the result
