Activity Priorities and Description

Program Key Priority Area *

Alcohol and Other Drugs

Other Program Key Priority Area Description

Aim of Activity *

- Increase availability of alcohol and other drugs (AOD) treatment services in the community, particularly to young people.
- Increase timely access to AOD treatment services for individuals and their families.
- Improve drug and alcohol treatment outcomes for clients, particularly for individuals who have high levels of complexity or co-morbidities including mental health conditions.
- Reduce harm associated with drugs and alcohol.

Description of Activity *

Five programs are delivered within this funding:

- Family Therapy and Support Program.
- Youth Dual Diagnosis Support Services.
- Youth Community Outreach Program.
- Transition House Program.
- Treatment Effectiveness Program (Clinical Care Coordination based within residential rehabilitation service).

These programs will continue to provide evidence-based treatment and community outreach support for:

- People who are accessing Lives Lived Well residential AOD service who have highly complex or comorbid conditions.
- Young people, providing treatment and education options in the community and working collaboratively with other service providers who are working with young people.
- Family members and carers of people with substance use issues.
- Clients who are receiving residential AOD treatment.
- Clients who transition from residential rehabilitation into transitional housing arrangements.

The programs will focus on:

- Continuing to commission Lives Lived Well for the provision of the above programs, using a contract management and performance monitoring approach that includes risk management, relationship management, data analysis, and continuous reviews of the Quality Improvement Plan.
- Enhancing referral pathways between General Practices, Gold Coast Hospital and Health Service, and mental health services (including GCPHN funded services) across the Stepped Care Continuum to ensure individuals who require a comprehensive dual-diagnosis response can access services.

GCPHN will continue to explore opportunities to improve consistency in performance reporting metrics and outcome measures across Qld funded AOD services.

Needs Assessment Priorities *

Needs Assessment

Gold Coast PHN_HNA 2024

Priorities

Priority	Page reference
High demand and limited availability of publicly funded AOD services, including after-hours options, acute detox and residential withdrawal services.	221
Inefficient system navigation leads to delayed connection of patients with suitable mental health, AOD and suicide prevention services.	221
Care coordination and information sharing among mental health, AOD, and suicide prevention services are often inefficient in particular transitions from acute or inpatient care to community services.	221
Reported high prevalence of vaping, particularly among young people.	221
Stigma and shame associated with mental health, suicidality and AOD issues.	221

Activity Demographics

Target Population Cohort

- Young people aged 12-35 residing in the Gold Coast area requiring treatment and support for AOD use.
- Individuals experiencing co-occurring mental health and substance related disorders in residential rehabilitation.
- Family members and carers of those accessing treatment.
- People exiting from residential rehabilitation and into transitional housing.

In Scope AOD Treatment Type *

Screening, Brief Intervention, Counselling, Case Management, Aftercare.

Indigenous Specific *

No

Activity Consultation and Collaboration

Consultation

As part of the implementation of the JRP, the Gold Coast AOD Strategic Partnership Group was established. This group had established workplan and prioritised key activities for delivery over the past 24 months; outcomes have been achieved in governance and leadership, transition of care, establishment of improved referral pathways, and improved understanding of health equity goals and needs for the region. In 2024-26, JRP strategy and planning will be further progressed to support AOD improvement outcomes for the region.

GCPHN will continue to explore opportunities to improve consistency in performance reporting metrics and outcome measures across QLD funded AOD services.

Collaboration

1. JRP Stakeholders - Gold Coast Health, General Practices, Aboriginal and Torres Strait Islander services, regional mental health and AOD services to support regional planning, referral pathways, continuity of care and integration of care.
2. GCPHN Primary Health Care Improvement Committee, Clinical Council, Consumer Advisory Council, Joint Regional Plan governance - advice, consultation, codesign and linkages to primary care and clinical services.
3. AOD peak bodies - Regional planning advice, promotion of services, engagement in outcomes framework activity.
4. Queensland Mental Health Commission - Regional planning input and advice, consultation regarding planned activities in the Achieving Balance Drug and Alcohol Plan (2022 – 2027).
5. Insight / Dovetail-Advice and possible partnering in relation to evidence-based treatment delivery, workforce development, education and training opportunities across the generalist and specialist workforce.
6. Queensland Primary Health Networks (PHNs) - Partnerships with Queensland PHNs to maximise investment opportunities and economies of scale for workforce development opportunities, quality improvement opportunities with providers, primary care improvement strategies.

Activity Priorities and Description

Program Key Priority Area *

Alcohol and Other Drugs

Other Program Key Priority Area Description

Aim of Activity *

- Increase availability of alcohol and other drugs (AOD) treatment services in the community, particularly through outreach options.
- Increase timely access to specialist AOD treatment services for individuals and their families.
- Improve AOD treatment outcomes for clients.
- Reduce harm associated with drugs and alcohol use, with a focus on methamphetamine use.

Description of Activity *

GCPHN will continue to commission QuiHN and Lives Lived Well (LLW) for the provision of community-based alcohol and other drugs treatment services for individuals in the Gold Coast community experiencing substance-related disorders and those who may have co-occurring mental health issues.

These activities build on and enhance the existing service system by increasing overall service delivery capacity through flexible and outreach-based service provision. Services will also be provided via a service hub and outreach in the community.

Services will provide timely access for clients wanting to address their alcohol and/or drug use, responding to the motivation for change exhibited by the individual, and will operate within harm reduction frameworks.

In 2024-26 GCPHN will focus on:

- Ongoing service delivery and performance management of commissioned programs (LLW and QuiHN).
- Continuation of the AOD Strategic Partnership Group.
- Activities under the Joint Regional Plan.
- Participation Qld MHAOD Network activities as relevant and appropriate
- Implementation of program logic with providers.

Activity Priorities and Description

Program Key Priority Area *

Alcohol and Other Drugs

Other Program Key Priority Area Description

Aim of Activity *

- Increase access to, and responsiveness of, specialist, culturally appropriate drug and alcohol treatment services for individuals and their families.
- Improve drug and alcohol treatment service outcomes for clients.
- Provide holistic and coordinated care for co-occurring issues including mental health and drugs and alcohol.
- Reduce harm associated with drugs and alcohol.

GCPHN commissioned alcohol and other drugs (AOD) treatment activities will continue to align with recommendations in the National Drug Strategy 2017-2026. Activities will also align with the QLD Health Aboriginal and Torres Strait Islander Health Equity Framework (released by Gold Coast Hospital and Health Service on 12 August 2022).

Description of Activity *

The Kalwun Development Corporation (Kalwun) will continue to deliver this AOD service as part of an integrated service for mental health and AOD treatment to the local Aboriginal and Torres Strait Islander community.

The service is delivered through the Social Health Team and encompasses a multidisciplinary team that works collaboratively with the clinical teams throughout the three Aboriginal and Torres Strait Islander health clinics on the Gold Coast, as well as mainstream primary care, mental health and AOD services.

In 2024-26 GCPHN will focus on:

- Commissioning the Institute of Urban Indigenous Health (IUIH) to support Kalwun Corporation to achieve required service improvements related to the agreed service model (and associated quality and risk management) and performance reporting requirements
- Ongoing service delivery and performance monitoring
- Activities under the Joint Regional Plan, including working closely with Gold Coast Hospital and Health Service to support implementation of the Aboriginal and Torres Strait Islander Health Equity Framework.
- Participation in QLD PHN MHAOD Network activities as relevant and appropriate.
- Implementation of program logic
- Undertaking of commissioning review for the service, ensuring service delivery aligns with the quintuple aim.

Needs Assessment Priorities *

Needs Assessment

Gold Coast PHN_HNA 2024

Priorities

Priority	Page reference
High demand and limited availability of publicly funded AOD services, including after-hours options, acute detox and residential withdrawal services.	221
Inefficient system navigation leads to delayed connection of patients with suitable mental health, AOD and suicide prevention services.	221
Ongoing improvements are required in culturally safe service provision across the system to ensure equitable, effective access for First Nations people.	86
Limited culturally informed holistic approaches to wellbeing and ill health prevention.	86

Activity Demographics

Target Population Cohort

Aboriginal and Torres Strait Islander people residing in the Gold Coast area requiring treatment support for alcohol and/or other drug use including individuals experiencing co-occurring mental health and substance related disorders.

In Scope AOD Treatment Type *

Screening, Brief Intervention, Counselling, Case Management, Aftercare.

Indigenous Specific *

Yes

Indigenous Specific Comments

Commissioning of the Institute of Urban Indigenous Health was undertaken in 24/25 to support Kalwun Corporation to achieve required service improvements related to the agreed service model (and associated quality and risk management) and performance reporting requirements.

The service model will be delivered through an integrated clinical service for mental health and alcohol and other drug treatment to the local Aboriginal and Torres Strait Islander community. The service, through its multidisciplinary team, will work collaboratively with the clinical teams throughout the three Aboriginal/Torres Strait Islander health clinics on the Gold Coast as well as mainstream mental health and drug and alcohol services to ensure access to treatment is facilitated for Aboriginal and Torres Strait Islander people.

Activity Consultation and Collaboration

Consultation

Consultation occurred with Kalwun during the 2019/20 period to inform a new model of service. This was commissioned in October 2019 and builds on the established approach of an integrated mental health, AOD and suicide prevention service. Further consultation was undertaken with Institute of Urban Indigenous Health (IUIH) in 2024 to understand corporate supports that could be leveraged through IUIH to support evidence of improved service outcomes for indigenous consumers.

As part of the implementation of the JRP, the Gold Coast AOD Strategic Partnership Group was established. This group had an established workplan and prioritised key activities for delivery over the past 24 months; outcomes have been achieved in governance and leadership, transition of care, establishment of improved referral pathways, and improved understanding of health equity goals and needs for the region. In 2024 - 2026, JRP activities will be progressed, including strategy and planning, to support delivery of the Aboriginal and Torres Strait Islander Health Equity Framework.

Ad-hoc and informal consultation continues to occur with stakeholders to inform the GCPHN needs assessment, JRP, and co-design activities. GCPHN will also continue to work closely with Gold Coast Hospital and Health Service to further enhance its understanding of health equity goals and needs for the region.

GCPHN will continue to explore opportunities to improve service performance, consistency and outcomes.

Collaboration

1. JRP Stakeholders - Gold Coast Health, General Practice, Aboriginal and Torres Strait Islander services, regional mental health and AOD services to support regional Planning, referral pathways, continuity of care and integration of care.
2. GCPHN Primary Health Care Improvement Committee, Clinical Council, Consumer Advisory Council, Joint Regional Plan governance - advice, consultation, codesign and linkages to primary care and clinical services.
3. AOD peak bodies - Regional planning advice, promotion of services, engagement in outcomes framework activity.
4. Queensland Mental Health Commission - Regional planning input and advice, consultation regarding planned activities in the Achieving Balance Drug and Alcohol Plan (2022 – 2027).
5. Insight / Dovetail-Advice and possible partnering in relation to evidence-based treatment delivery, workforce development, education and training opportunities across the generalist and specialist workforce.
6. Queensland Primary Health Networks (PHNs) - Partnerships with Queensland PHNs to maximise investment opportunities and economies of scale for workforce development opportunities, quality improvement opportunities with providers, primary care improvement strategies.
7. Institute of Urban Indigenous Health (IUIH) – Peak body for indigenous services in South East QLD
