LET'S TALK WOUNDS

Infected Wounds WEBINAR

21 May 2026
11-12pm (AEST)

Virtual case-study based sessions to talk
about wounds and wound care.

DR MICHELLE GIBB

Director and Founder
Wound Specialist Services

PhD M Nsg Sci (NP) M Wound Care BN CF

Michelle is a nurse practitioner with extensive experience in wound management across the continuum of healthcare and is well known both nationally and internationally for her expertise in the field. With a Doctor of Philosophy, Master of Nursing Science (Nurse Practitioner), Masters of Wound Care, Bachelor of Nursing and over 20 years' career experience in the speciality of wounds, Michelle has a proven ability to inspire, motivate and develop others in the speciality of wounds.

VIRTUAL CASE-STUDY SESSIONS

The Let's Talk sessions are case-based discussions about a key wound care topic. The sessions will be held every second month and are open to anyone located within the Gold Coast Primary Health Network.

These sessions are designed to stimulate discussion and problem solve common wound presentations.

Participants are encouraged to ask questions, and share experiences in a supportive environment.

WHAT WILL BE DISCUSSED

- Identify risk factors for wound infection
- Recognise signs and symptoms of wound infection
- Learn how to perform a bacterial wound culture
- Explore treatment options for infected wounds including wound hygiene strategies, antimicrobial dressings and exudate management
- Identify prevention strategies to reduce the risk of wound infection including hand washing, aseptic non-touch technique and wound hygiene principles
- Recognise escalation criteria and/or when to refer (e.g. recurrent infection, infection not responding to topical and/or systemic antibiotic therapy, osteomyelitis, recurrent cellulitis)
