Value for Organisations

Building the skillset required to confidently support Ear Wax Removal (Irrigation) and improve Ear Health Assessment focussing on safe clinical practice. Be workplace ready to understand the changing treatment considerations and processes.

Learning Outcomes

- Understand the basic anatomy and function of the ear including the basic landmarks of the tympanic membrane.
- Assess the ear to define the appropriate wax management decision, identify the risks and risk management considerations.
- Recognise complications of ear irrigation, and appropriate management, documentation, and follow up processes.
- Understand the competencies required for successful ear irrigation.
