Our August Practice Manager Breakfast is one you won't want to miss!

General practice is facing one of the most significant periods of change in recent years. From Medicare reform and funding models to workforce challenges, digital transformation and rising patient expectations, the next 12 months will test every practice's ability to adapt.

The good news? Change also creates opportunity!

We are privileged to welcome Tracey Johnson, CEO of Inala Primary Care, as our keynote presenter. A Churchill Fellow, health economist, national primary care leader and recipient of the Prime Minister's Stronger Medicare Award, Tracey is widely recognised for challenging traditional models of care and helping shape the future of Australian general practice. Her practical insights, innovative thinking and real-world experience have inspired practices across the country.

Presenting Leading Change - The Practice Manager Advantage, Tracey will explore:

- What lies ahead for general practice
- Why practice managers are uniquely positioned to influence success, and
- How strong leadership today will build resilient, future-ready practices for tomorrow.

Whether you're looking for fresh ideas, practical strategies or simply reassurance that your practice is on the right path, this session promises to leave you informed, energised and ready to lead with confidence.

Catering will be provided.
