

We're Looking for a Different Kind of Nurse Practitioner

Join us at the heart of the community.

Some people choose to work in healthcare.

Others choose to change lives.

Nerang Neighbourhood Centre is searching for an experienced **Nurse Practitioner** who is passionate about providing accessible, compassionate healthcare to people who need it most.

For the past three years, our community has been privileged to work alongside an exceptional Nurse Practitioner who became an integral part of our Centre. Through her dedication, kindness and clinical expertise, hundreds of people, many experiencing homelessness, financial hardship, mental ill-health, social isolation or significant disadvantage, received timely healthcare they may never otherwise have accessed.

Following her retirement due to health reasons, we are now seeking someone to continue this remarkable legacy.

About Nerang Neighbourhood Centre

We are one of the Gold Coast's busiest community centres, supporting thousands of people each year through crisis support, homelessness assistance, employment services, financial resilience, food relief, youth programs and community development initiatives.

Our clients are often navigating multiple and complex challenges.

This is healthcare where it matters most.

This is primary healthcare at the coalface.

The Opportunity

This is a unique private practice arrangement within a well-established community organisation.

We provide:

- A fully equipped private consulting room
- Internet access
- Reception support
- An established referral pathway from our experienced community team
- A collaborative multidisciplinary environment
- A steady stream of clients requiring primary healthcare
- A welcoming, supportive workplace where you'll never feel like you're working alone

You provide:

- Your Nurse Practitioner services
- Your own clinical systems and equipment

- Independent management of your client appointments
- Bulk billing directly through Medicare

There are no room rental costs and no financial arrangements between yourself and the Centre. Our shared goal is simple:

To ensure vulnerable members of our community have access to high quality healthcare.

Who We're Looking For

We're seeking someone who:

- Is an endorsed Nurse Practitioner with AHPRA registration
- Believes healthcare should be accessible to everyone
- Enjoys working collaboratively with community services
- Is compassionate, flexible and solutions-focused
- Wants to build genuine relationships with clients
- Understands that sometimes the greatest impact comes from meeting people exactly where they are

Experience in mental health, primary care, chronic disease management or working with vulnerable populations would be highly regarded, but above all we're looking for someone with heart.

Why You'll Love It Here

You'll become part of an experienced, passionate team committed to making a real difference every day.

You'll work alongside community workers who understand the broader social issues affecting health outcomes and who genuinely value multidisciplinary collaboration.

No two days are the same.

Every day matters.

Every consultation has the potential to change a life.

Interested?

If you're looking for an opportunity to use your clinical expertise where it will make the greatest impact, we'd love to hear from you.
