

IMMUNISATION UPDATE FOR PRIMARY CARE NURSES & GPs

Immunisations have a vital role in preventing the spread of infectious diseases and protecting individuals from serious health complications. It is important to maintain high levels of vaccination coverage in Australia to ensure herd immunity within populations and reduce the overall healthcare burden by preventing illnesses and outbreaks before they occur.

Gold Coast Primary Health Network (GCPHN) invites Gold Coast general practice nurses and GPs to an educational and networking session for the annual GCPHN Immunisation Update.

Learning Outcomes

- Identify and apply current evidence-based immunisation practices, including updates to the NIP, emerging disease trends and changes to vaccine delivery programs.
- Describe strategies to increase immunisation coverage and vaccine confidence through quality improvement activities, effective patient communication, and innovative practice-based approaches.

Tuesday 13 October 2026

6pm - 8.30pm

Mercure Gold Coast Resort
Palm Meadows Drive,
Carrara

*This will be a face-to-face event and
dinner will be provided.*
