

Grace Private Obstetrics and Gynaecology update: A round table discussion on women's health conditions

Gold Coast, we warmly invite you to an evening designed to connect you with our Grace Private consultants and enhance your knowledge in Women's Health.

Join us for a GP education round table CPD activity, offering practical, relevant insights into the management of common women's health conditions in general practice. This interactive format provides an opportunity for meaningful discussion, with each presenter rotating between tables to facilitate informal conversations and answer questions across a range of topics.
