Gold Coast Health GP Liaison Unit

Practice Manager Breakfast

27th October 2026

Gold Coast Health
Practice Education Program

Floating our vision with you….

The Vision

A new, simple way for General Practice to book education visits with Gold Coast Health Services.

The Why

- We're good – so people are flagging with us they want access to you
- You are:
  - Busy
  - Tired of random contact
  - Need consistent messaging from the health service

The Proposal

- One central place for practice education request
- Start to build connections with a range of Gold Coast Health Services
- Support current clinical knowledge and referral pathways
- Flexible sessions (in person, online)

Sounds great… why don't we just do it? ☺

Clinician's LOVE evidence-based feedback, so we need support to get it off the ground.

Current Opportunities

IMPACCT Services – has their geriatrician and current acting medical director visiting practices

- Available to book a practice visit now, advertised in our newsletter – contact us for the forms link to request a booking.

DevPaed Connect – the Child Development Services team is very keen to connect and explain how they are expanding their service to offer advice and support whilst patients are on their wait lists.

But Rhi…. We want different services

Give us the feedback!

Who would be most beneficial, what is the biggest concern referral wise for the patients at your practice – demographics vary and we want to support you each with your individual needs.

Give us a challenge, we'll try and get them there.

(no promises ☺)

The words we all live by: Don’t disappoint Pete.

Reach out!
