PHASES 

SMARTER TOOLS FOR STRONGER HEARTS

A practical, face-to-face update for Gold Coast general practice teams

Discover the latest approaches to cardiovascular disease prevention and risk assessment in general practice. Hear expert clinical insights, see how Primary Sense can help identify and recall patients at increased risk, and learn from local practices achieving real-world quality improvement outcomes.

Learn from Professor Atifur Rahman as he explores emerging cardiovascular risk factors and evidence-based approaches to cardiovascular disease prevention in general practice.

The evening will be covering:

- Latest evidence in cardiovascular prevention
- Turning data into action
- Quality improvement in practice
- The PHASES impact

Registration and dinner from 6:00pm

RSVP
